REFUSAL TO ACCEPT TRANSFUSION
OF BLOOD AND/OR BLOOD PRODUCTS

Re: ________________________________
(Print name of patient)

1) My health care provider (printed name) ___________________________________________ has told me that during my treatment it may be necessary to receive a transfusion of blood and/or blood products such as red blood cells, plasma, cryoprecipitate, or platelets.

2) My health care provider has also told me about the risks of receiving a transfusion from volunteer donors. I understand that risks exist even though the blood and/or blood products have been tested. I understand that in most cases the risks are small, however in some cases serious injury and/or death may result.

3) My health care provider has discussed with me autologous blood donation and other suitable treatments. I have been told that even if my own blood is used, it may still be necessary to give me other blood and/or blood products.

4) I have been given information on blood and/or blood products for transfusion and the chance to ask questions about the benefits and risks of blood and/or blood products for transfusion. My health care provider has answered my questions to my satisfaction.

I understand this form and the facts given to me. I hereby refuse to have blood or blood products during my treatment. I understand that this refusal is valid for this hospital admission or course of treatment only. I have the right to change my mind at any time regarding this refusal. I know there may be a state when it would be impossible to speak or cancel this refusal.

EXCEPTIONS TO REFUSAL: This patient has indicated special instructions for the transfusion of blood products:
